## User Manual

# 1Hydro Filtration Straw Refill

\* 1Hydro Bottle not included

The **1Hydro Filtration Straw Refill** can remove 99.9999% of waterborne bacteria (>LOG 6 reduction), including E-Coli and 99.9% of waterborne protozoan parasites (>LOG 3 reduction), including Giardia & Cryptosporidium. Utilizing the BEST coconut activated carbon and hollow fibre UF membrane filter technology, it can soften the water and improve taste and odor.

#### **1Hydro Filtration Straw Refill Specifications:**

1. For Use with 1Hydro Pro Series Portable Water Filter System
2. Easy to Replace
3. Filters 1,500 liters / 396 Gallons of Water
4. Zero Aftertaste as it Contains No Chemicals or Iodine
5. BPA Free / Eco Friendly
6. Shelf Life of 5 Years

#### **1Hydro Filtration Straw Replacement Directions:**

1. Unscrew top of bottle turning counter-clockwise.
2. Remove filtration straw by turning counter-clockwise.
3. Screw filtration straw clockwise onto inside of top of bottle.

#### **1Hydro Filtration Straw Refill Usage:**

1. After each use, blow out water from the filter to keep the filter clean and dry.
2. When flow decreases, remove and clean the filter by flushing water through the filter in the reverse direction. This should ensure water circulation is again maximized.
3. In order to ensure maximum filter life, do not use harsh soaps, detergents or other corrosive materials to clean the bottle or filter.
4. Do not filter liquids containing carbonic acid, flavors, sugars and others. This filter is designed specifically for filtering water.
5. Please blow air through filter before sucking in water each time.

\*Note: The activated carbon is pre-washed during the manufacturing process. However, there may still be a slight carbon coloration of the water on initial use. This is not harmful and will clear up after a few ounces of water.
