User Manual

Roadside Safety Disc

The **Roadside Safety Disc** has 15 Ultra Bright LED's and can be seen from over 5,000 feet!

Roadside Safety Disc Features:

- Lamp Life - Over 1,000 hours
- Run Time - 13 hours
- LED Emitters - 9 unique flashing modes
- Multi-use - Magnet base
- Durability - Waterproof and floats

Range of Use:

- A safe and ecologically friendly emergency road flare. NO spark, open flame, fumes, or toxic chemicals are produced when using the Safety Disc
- Shock resistant construction makes the Safety Disc durable and able to withstand potential impact
- The Safety Disc can be used lying flat, on its side, or hanging. It has a magnet for metal applications. It is also waterproof, so it may be used in marine applications submerged up to 33 feet. If not attached by magnet, the Safety Disc will float

To Operate Roadside Safety Disc:

Press the ON/OFF button to rotate through the following 6 light patterns:

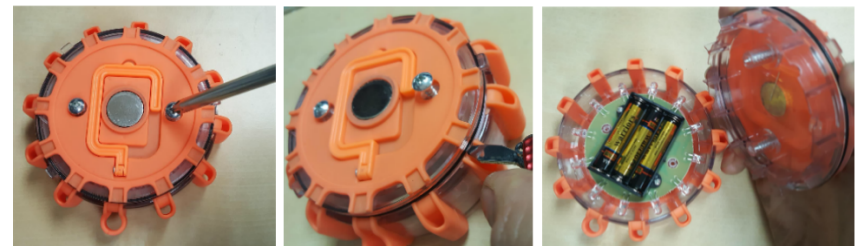

| LIGHT SEQUENCES | RUN TIME |
|--|-----------------|
| 1. Double Pulse | 15 Hours |
| 2. Single Pulse | 15 Hours |
| 3. Short Single Pulse | 100 Hours |
| 4. Rotating Beacon | 15 Hours |
| 5. Alternating Flash | 24 Hours |
| 6. SOS | 8 Hours |
| 7. Steady Full Beam | 10 Hours |
| 8. Steady Low Beam | 15 Hours |
| 9. White LED Work Light (short double click) | 10 Hours |
| 10. Off | |

ALTERNATE OPERATION:

To turn the Safety Disc off without cycling through the 6 light patterns, press and hold the ON/OFF button for 2 seconds.

Battery Replacement: (3*AAA Batteries)

1. Unscrew the two screws completely on the bottom of the unit.
2. Place the screwdriver under one of the plastic tabs and twist to open the cover.
3. Lift the cover to reveal the battery compartment.
4. Insert/Replace AAA batteries into the battery retainer.
5. Replace cover and screws.

Customer Support:

To reach our customer support staff Monday through Friday 8am - 4pm PST, email support@1tac.com or call 877-616-3515, press option 2.
